Completing a Protectus training course will provide you with the understanding and competence to meet the increasing demands of legislation and ensure that both you and your business are positioned to act on them. All Protectus courses can be customised to meet your specific requirements. All delegates will receive a certificate of attendance.

Introduction

The Manufacturing sector has many potential hazards and risks to the employee.

Statistics

In 2004/05 according to the HSE there were 41 fatal injuries, an increase of 37% on 2003/04 and the number of major injuries was 6,078.

Major Injuries		Occupational ill health injuries
Manual handling/musculoskeletal injury	18% of 6,078	Musculoskeletal injuries
Slips and trips	27% of 6,078	
Struck by a moving or falling object	16% of 6,078	

Legislation

Legislation requires that managers and employees should be competent to perform their work. A person is regarded competent if they have sufficient training, experience and knowledge.

The Health and Safety at Work Act 1974 requires all employers to ensure the safety, health and welfare at work of all employees.

Under the Management of Health and Safety Regulations 1999; regulation 13 requires employers to provide adequate health and safety training.
