Completing a Protectus training course will provide you with the understanding and competence to meet the increasing demands of legislation and ensure that both you and your business are positioned to act on them. All Protectus courses can be customised to meet your specific requirements. All delegates will receive a certificate of attendance.

### Introduction

The Laundries and Dry Cleaning Sector employs around 46,000 employees in 3,600 companies, with a turnover of £1.2bn per year.

### Statistics

According to the HSE the main types of injuries are:

Major Injuries	Occupational ill health injuries
Manual handling/musculoskeletal injuries	Noise induced hearing loss from noisy machines, e.g. cleaning plant, machinery
Slip trips and falls	Respiratory irritation from breathing fumes such as chlorine, hypochlorite, ammonia and sulphur dioxide
Falls from height	Occupational dermatitis from chemical cleaners

### Legislation

Legislation requires that managers and employees should be competent to perform their work. A person is regarded competent is they have sufficient training, experience and knowledge.

The Health and Safety at Work Act 1974 requires all employers to ensure the safety, health and welfare at work of all employees.

Under the Management of Health and Safety Regulations 1999; regulation 13 requires employers to provide adequate health and safety training.
